

Sustainable Housing

Multi-family Homes

Residential

2,000 BUILDING SQ FT	0 DISPOSAL BINS REQUIRED
14 ENVELOPE BUILD TIME (DAYS)	5 TECHPANEL INSTALL CREW
50% ESTIMATED ENERGY SAVINGS	2 TECHPANEL TRANSPORT TRUCKS

With an increasing need for sustainable affordable housing options, ZS2 designed just that. These single family and duplex homes are built with a complete TechPanel building envelope. This ensuring increased energy efficiency, lower heating and cooling costs and greater durability. This building style is perfect for remote areas, new communities, and intercity housing. These affordable housing units can be built faster, with less labour and lower construction costs. Add in the fire, water, and pest resistance, and you have affordable housing that also is safe, sustainable and climate resilient.
